DETAILED ACTION

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: Method for cladding a simple or complex surface, electrically conducting or semiconducting, by means of an organic film from at least one precursor of organic film, characterized in that the cladding of the surface by the organic film is carried out by electro-initiated grafting of at least one precursor of surface by applying at least one potential sweep on this surface carried out in such a way that at any point of surface the maximum potential of each potential sweep, in absolute value and relative to a reference electrode, is greater than or equal to the value of the potential (V_{bloc}) from which the curves of a graph expressing the quantity of electro-grafted precursor on a surface identical to surface in function of the number of potential sweeps are all superposed and independent of this (V_{bloc}) potential.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
